

Thin Sheets
1 to 3mm

SHEETS FOR CASING AND FINISHING :

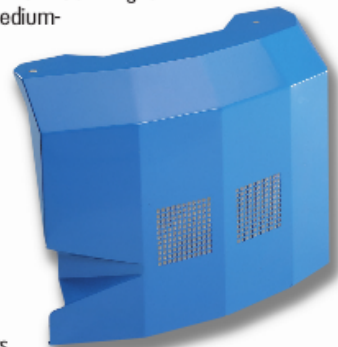

A SENSE OF PRECISION...

COMEBO Industries is positioned in the field of the machining of thin sheets for casing and finishing, in small and medium-size series.

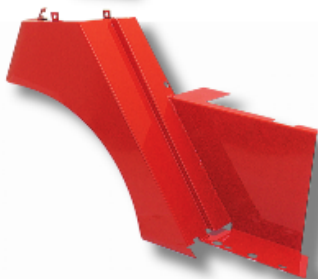

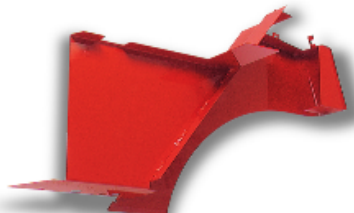

COMEBO Industries provide performing answers to the realization of :

- dashboards,
- capping,
- pieces of furniture,
- control desks,
- electrical cabinet,
- elements of bus casings, &c. . .

Quality of equipment, high level of investments, performance of teams, COMEBO Industries emphasize three indicators :

- 2** the number of laser machines. Two "Bistronic"TM, the ultimate in terms of rapidity and quality of laser machining of your parts.
- 8** the annual percentage of our turnover dedicated to the renewal and adaptation of our equipment.
- 10** the annual percentage of the total payroll dedicated to the training of our teams.

- DÉCOUPE LASER
- TÔLERIE INDUSTRIELLE
- MÉCANO-SOUDURE
